EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Catherine Bell on July 19, 2006.

The application has been amended as follows:

Cancel claims 37-62.

2. The following is an examiner's statement of reasons for allowance:

The instant amended the claims are directed a supported olefin polymerization catalyst, wherein the support comprises a hexagonal arrangement of uniformly-sized pores having pore diameter of 13 Å or more and a calculated d_{100} value of 13 Å or more and a pore wall thickness of 25 Å or less, and adsorption capacity of 15 grams or more of benzene per 100 grams of support.

Beck et al. (US 5,057,296) use a method similar to the method disclosed Example of the instant application to prepare a support with d_{100} value, average pore size and adsorption capacity met those limitations of the instant claims except Beck is silent about the pore wall thickness. While Beck's pore wall thickness is likely to be inherently the same as that of the instant claims, Beck does not teach or suggest the support for making supported catalyst for olefin polymerization. Furthermore, applicants

have shown that the catalysts supported on the supports of the instant claims provide unexpected superior activities compared to the same catalyst supported on the supports which do not meet all of the limitations of the instant claims, therefore, it would not have been obvious to use the support of the instant claims to prepare a supported olefin polymerization catalyst.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
